Education

University of Florida

POSTDOCTORAL RESEARCHER

- Advisor: Dr. Rui Yin

Gainesville, United States

November 2023 - present

King Abdullah University of Science and Technology

PHD DEGREE

- Advisor: Dr. Xiangliang Zhang and Xin Gao

Jeddah, Saudi Arabia

January 2019 - present

King Abdullah University of Science and Technology

INTERN

- Advisor: Dr. Xiangliang Zhang

Jeddah, Saudi Arabia

May 2016 - November 2016

Soochow University

MASTER DEGREE

- Advisor: Dr. Zhixu Li

Suzhou, China

September 2014 - July 2017

Pingdingshan University

BACHELOR DEGREE

Pingdingshan, China

September 2010 - July 2014

Professional Experience

2020-2021 **Graduate Teaching Assistant**, Data Mining, KAUST, Saudi Arabia

2017-2018 **Graduate Research Assistant**, Knowledge Graph Mining, Soochow University, China

Research Interests

Interpretable Graph Mining. I focus on developing algorithms for interpretable graph mining, aiming not only for accurate predictions but also for generating interpretable structures, such as paths or sub-graphs. My research seeks to uncover the reasoning behind predictions, enhancing the transparency and trustworthiness of graph-based models.

Heterogeneous Graph Learning. In the realm of heterogeneous graphs (e.g., academic graphs, social networks, knowledge graphs), my research centers on learning graph representations that leverage the complexities arising from diverse node and edge types. I aim to optimize graph-related tasks, including node classification, link prediction, and graph classification, by harnessing the unique characteristics of heterogeneous graph structures.

Text and Multimodal Mining. Within text mining, I delve into tasks such as text classification and sentiment analysis, utilizing state-of-the-art pre-trained models like BERT and BART for enhanced accuracy. In the realm of multimodal mining, my focus extends to image captioning, where the goal is to generate concise and contextually relevant textual summaries from images.

Awards & Fellowships

- 2018 **University Excellent Master Thesis Award**, Soochow University
- 2017 **Excellent Graduate Student Award**, Soochow University
- 2016 **National Scholarship Award**, Soochow University
- 2015 **Best Student Paper Award**, NDBC

Presentations

** presenting author; + mentored graduate*

- Qiang Yang**⁺. 2023. Can We Use ChatGPT for Knowledge Graph and Vice Versa? Oral presentation. ADA Lab, Soochow University
- Qiang Yang**^{*}. 2022. Interpretable Research Interest Shift with Temporal Heterogeneous Graphs Detection. Oral presentation. Singapore, Singapore.
- Qiang Yang**^{*}. 2021. Interpretable Relation Learning on Heterogeneous Graphs. Oral presentation. Virtual Conference.

Teaching Experience

Spring 2021 **Data Mining**, Teaching Assistant

Spring 2017 **Database**, Teaching Assistant

Programming Skills

Python, Java, C
